BOTH SIDES WIN THEIR CASE

In Damage Suit of Thompson vs. C. B. Cummings & Sons. Two Verdicts Rendered.

The damage suit of Thompson vs. C. B. Cummings & Sons was commenced Friday afternoon, and was tried before a drawn jury of which N. F. Brown was foreman. Several jurors were challenged, three by the plaintiff and four by the defense.

This is a case where the defendants are alleged to have obstructed the channel and outlet of the lake with saw logs to the inconvenience of the plaintiff and cottage owners about the lake, and is to determine if defendants have that right.

Hon. A. S. Kimball, M. L. Kimball, Hon. John P. Swasey were counsel for the plaintiff and C. E. Holt, County Attorney Chas. F. Barnes and Judge Foster for the defense. The sum sued for as set forth in the writ is \$800, but in reality it was not the money value of the damage sought but it was to determine the rights of the parties and the lake traveling public.

Mr. Kimball opened the case and explained matters to the jury and told them what was to be proved. That the outlet and channel was a navigable spring and summer of 1904-5 allowed their logs to blockade it unnecessarily for a longer period than was a reasonable time, to the inconvenience and damage of his client.

A year ago the court appointed civil engineer, R. B. Stratton of Rumford Falls, to make a survey of the lower lake or bog and the outlet, showing high and low water, dams, stumps and channel. Mr. Stratton was the first witness and explained to the jury some two hours the plans and maps he had made.

Geo. A. Cole, who all his life, 63 years, has lived near the dam and was conversant with the water, testified that with possibly one exception the water was the lowest a year ago last October that he had ever seen it and that when a boy he saw cord wood brought to town in a flat-bottomed boat from Chagoy's island. He explained and made estimates of the size of the water sheds of the three lakes or ponds, Pennessawassee, North and Hobbs ponds. He told how the logs were piled in the channel in the winter and spring of 1905. He also told of the grist mill and saw mill and water flow. He felt that the defendants did all they could to keep the channel clear.

Alvin Parsons of Auburn, a member of the firm of Parson Bros., who were owners of the upper millage since the 60's and operated a flouring mill. He talked of the wheels, water and condition of the stream at that time.

M. W. Sampson had assisted the civil engineer in making the survey a year ago and was on the witness stand the most of Saturday forenoon. He had worked for Dr. Thompson the season of 1904 and a portion of 1905. He said that logs were in the channel at the bridge from May 3d to 19th in 1904, and that a small boom of logs was allowed to remain in the channel from May 20th to June 9th and that little or no attempt was made by the defense to clear the channel. Owing to the logs he was unable to get suds up to Rock Island, until they had been spoiled. The suds lay at the steamer wharf for many days and when navigation was opened and the suds arrived at Rock Island 300 feet of them were spoiled. Teams were employed to carry men to work at the island. This witness said logs choked the channel in 1905 from April 23d to May 7th, and again from July 13th to the 23d, and that logs stopped boat navigation above and below Crockett's bridge until about the last of August that year. This season witness did not work for the plaintiff but was working for Col. F. R. Taylor at his cottage, and he and all who went to the lake homes were put to great inconvenience.

Mr. Sampson had assisted Lewis Willson in making a survey of the three lakes. Pennessawassee contained, lake proper, 522 6 1/2 acres. North pond, 205 1-10 acres and Hobbs pond 94 8-10 acres. Mr. Sampson was subjected to a long cross examination by Judge Foster but little or no change was made in his testimony.

J. C. True is 40 years old and something of a fisher. He and John Woodman had been put to inconvenience by the channel being filled with logs in the year 1904-5.

E. E. Witt, farmer, lives near lake and owns cottages, told of water shed of the lake and saw logs in channel. F. A. Danforth said he and J. C. True were obstructed twice at different times by logs of the defendant in the channel. He also explained the water shed and gave some estimates of water flowing in the brooks.

Geo. W. Richardson of Greenwood, who lives at the head of North pond, told of the water shed and brook of Greenwood Hollow, also the condition of the bog.

W. O. Needham and John A. Woodman have on several occasions been put to inconvenience by logs in the channel, several times in 1904 and 1905.

Chas. W. Partridge, Norway Lake, is 73 years old and has always resided at Norway Lake and has known the water all his life. He thinks that 50 years ago there was a third more water flowing into the lake than at present. With his father he had taken a grist to a mill on the outlet stream at Hobbs pond. There was a grist mill and saw mill then. It was located just a little ways on the lake and had seen logs in the channel on the stream flowing from North pond. He had hauled logs to it and they were sawed with an up-and-down saw. He described the water sheds of the lakes, also the brooks. He had seen logs in lake and the outlet of lake choked with logs. He remembered the "candlew" used to take wood from the islands.

John A. Woodman, proprietor of Beal's hotel, testified to logs being in channel and inconvenience it had occasioned in the fall of 1904 built a road to it, half a mile or more, so as to be able to reach it by land.

Col. F. R. Taylor owns two cottages and has been put to much inconvenience by logs in the channel in 1904 and 1905. He gave dates and times when channel was navigable. The channel was not kept open. Several forms of entertainment were afforded. Hattie O'Grady in a typical gypsy tent told fortunes. Refreshments consisting of cake, apples, grapes and nuts were served. A general social time was enjoyed and at a late hour all departed having spent one of the most enjoyable times of their lives.

No better place could be selected for the wedding and wedding after that night claims as its own than by the side of Lake Pennessawassee. The softened light of the brilliant Hunter's moon cast its spell over the lake with the Indian name till one could almost fancy the spirits of the original inhabitants were lurking 'neath the dark shadows of the forest trees.

Many ghosts and other looking creatures were seen on the streets of Norway, Wednesday evening, and a large number of them were seen to enter Grand Army hall, where the Juniors of the High school held their Halloween party. That season the water from the dam was initiated in some mystic degree and then given a seat in the hall. The hall was decorated in regular Halloween style, with evergreens, Japanese lanterns and Jack-o lanterns. Refreshments were served and games played, including march and circle, tucker, trip the willow, Athens, road to Boston, Virginia reel and others. There were about 40 present and a jolly crowd it was, too.

The Order of the Gray Witch. The call was sounded—"You are summoned to a Halloween gathering of the Order of the Gray Witch by Mrs. J. C. Shepard, Mrs. M. L. Kimball, Mrs. E. A. Goudy. The revel will be held October thirty-first, nineteen hundred and six. Time, eight by the village clock. Place, home of Mrs. Shepard on Bridge street. Come in sheet and pillow case dressed. R. S. V. P."

Twenty-eight mysterious people responded, and their closest terrestrial friends could not tell "tother from which." The Shepard residence on the occasion, Japanese lanterns and Jack-o lanterns taking prominent part. The different expressions on the faces of the Jacks were studies in physiognomy. Their grins were distinctly fetching. Halloween stunts were performed on costumes, among which was the dance and mystic brew. After unmasking and when "Richard was himself again," they enjoyed some well played games of whist. Pastry, doughnuts, coffee, pop corn and other good things made up the fare. Each guest was presented with a souvenir pin of a diminutive smiling pumpkin. It was the jolliest party of the season.

REACH THE SPOT.

To cure an aching back, The pains of rheumatism, The tired-out feelings, You must reach the spot—get at the cause.

In most cases 'tis the kidneys. Doan's Kidney Pills are for the kidneys.

Charles Bierbach, stone contractor, living at 2925 Chestnut St., Erie, Pa., says: "For two years I had kidney trouble, and there was such a severe pain through my loins and limbs that I could not stoop or straighten up without great pain, had difficulty in getting about and was unable to rest at night, arising in the morning tired and worn out. The kidney secretions were irregular and deposited a heavy sediment. Doctors treated me for rheumatism, but failed to help me. I lost all confidence in medicine, but Doan's Kidney Pills relieved me so quickly and so thoroughly that I gladly made a statement to that effect for publication. This was in 1898, and during the six years which have elapsed I have never known Doan's Kidney Pills to fail."

A FREE TRIAL of this great kidney medicine which cured Mr. Bierbach will be mailed on application to any part of the United States. Address Foster-McLure Co., Buffalo, N. Y. For sale by all druggists; price, 50 cents per box.

BETHEL.

The meeting for the organization of the Soldiers' Memorial association will be held next Monday evening at Pattee's hall.

The death of Mrs. Susanah Twitcomb, widow of the late Rev. J. K. Mason, occurred at her home in Boston, Oct. 31st. Interment at Livermore Falls has been visiting relatives in town.

Dr. F. B. Thell is making extensive improvements on his Broad street residence including the building of an extension to his house and the installing of a new bath-room.

L. W. Bartlett and James S. Bartlett are at Richardson lake with their teams engaged in hauling lumber for Edward N. Carter, who has a logging contract there and has already begun operations.

Fred Clark, who suffered a serious injury of one eye several weeks ago by the explosion of a cartridge, and who has been in the Maine Eye and Ear Infirmary for treatment, has returned home. His eye is very much improved and he feels confident of a complete recovery.

It is now an assured fact that Bethel will have a new mill. It will be located just north of the railroad near the over-head bridge. A crew of workmen have already begun work on the foundation and the work is well advanced.

It is intended to get everything ready for the sills before the ground freezes and during the winter the material will be gotten together so that in the early spring work will be resumed and pushed to a rapid completion.

A movement is on foot to have closed by act of the next legislature a Sunday river and its tributaries for a term of five years excepting from the law a portion of the streams for one day each week. At present the river is so much asked that it is spoiled for good fishing and it is desired to have the law extended to the river for a term of years. The large amount of summer travel in the vicinity as well as local demands render it desirable that the trout fishing in this vicinity be preserved.

The Grand Trunk crew, which has been working here all summer, has been increased by the addition of another crew where the track is being lowered from one to five feet extending westerly from the depot to and beyond the over-head bridge. The old wooden bridge will be replaced by a new iron structure of wider span and double tracks will extend beneath and beyond the bridge. These improvements will be a great convenience in aiding the company to handle their rapidly increasing business at this point.

Middle Intervale. Florence Kimball is at S. C. Foster's in Norway.

Sadie Farwell has been at home sick with measles.

H. M. Osgood has gone to Harrison, where his wife is.

A. M. Carter has been cementing his cellar, Cal Sanborn, workman.

John Kimball, wife of Owen, N. H., have been at his parental home for a rest.

Mrs. Carter after a vacation on Paris Hill has returned to her parental home here.

Mrs. Goodrich and daughter of Gorham, N. H., have been visiting at Wm. Brown's.

Rev. Geo. Greene of Lawrence, Mass., has been at the Tapley Kimball place on a vacation.

Mrs. Woodbury, who has been at the Cape House for some time, has returned to her home in Portland.

Louis Aeskoft, Rumford, cobbler, has filed a petition in insolvency.

In the November Scribner's Magazine John Ruskin is the subject of a very interesting article called "Ruskin and Grilhood," by L. Allen Harker, the author of that delightful story, "Concerning Paul and St. Erasmus." She was one of Ruskin's child friends, and for many years had opportunities of knowing him in his home and familiar life. The article gives an impression of Ruskin as he appeared to his friends, of his sincerity, ideals and kindness of heart.

NOTICE OF TAX SALE.

Unpaid taxes on lands situated in the Town of Oxford, in the County of Oxford, for the year
1905.
The following list of taxes on real estate of non-resident owners in the Town of Oxford,
aforesaid, for the year 1905, committed to me for collection for said Town on the thirty-first
day of July, 1905, remain unpaid; and notice is hereby given that if said taxes with interest
and charges are not previously paid, so much of the real estate taxed as is sufficient and
necessary to pay the amount due therefor, including interest and charges, will be sold at
public auction at Town House in said Town, on the first Monday in December, 1906, at nine
o'clock A. M.
Description of Property. Amt. Tax.

STEPHEN D. JILLSON, Collector of Taxes for the Town of Oxford.

ALBANY.

Fernald's Mills.
Mrs. Alton Fernald has been making
calls on friends in this neighborhood.

Clarence Grover from West Paris has
visited relatives here and at Stoneham.

Elmer Saunders has been entertaining
the whooping cough. 'Not a very wel-
come guest, I think.

F. H. Grover has traded his horse for
Harry McNally's large work horses, and
is hauling shooks for J. Bartlett & Sons
of Stoneham to Norway.

They are setting the poles through
here for the Mr. Abram telephone line.
We hear that they expect to have the
line in running order very soon.

Fred Cummings has been working at
North Waterford, helping to clear the
lot by the Dresser blacksmith shop,
where we understand Mr. Dresser in-
tends to build a new house in the spring.

Mrs. O. H. Sanders, Mr. and Mrs.
Chesley Fernald, Mrs. Parke Flint and
little grand daughter, Nellie Rugg, have
all been on an excursion to Portland.
Little Miss Nellie was quite ill when
she returned but is better now.

Mr. and Mrs. Frank Grover went to
Stoneham, Sunday, to visit his parents,
Mr. and Mrs. Simon Grover, it being
their 40th wedding anniversary. Four
other sons were present, and their
daughter from Rumford Falls, who was
called home a few days before by the se-
vere illness of her mother.

Alton Grover and Percy Culbert of
East Stoneham were in town Saturday.
Percy tells us that his father is soon to
move to Ontario. Mr. Culbert is a na-
tive of Canada, but has made his home
in the States for the past 20 years, and
if his wife had lived would probably

have always made his home here but
since her death, with six children aged
from three to 14, his thoughts naturally
turn to his old home and his own people,
who are very anxious to have him come
to them. He will be greatly missed by
his many friends here who all join in
wishing him and his family of little ones
a safe journey to, and prosperity in
their new home.

Neuralgia Anodyne Cures Neuralgia,
Headache, Toothache, etc.

The knife-like pains of neuralgia, ner-
vous headache, rheumatism and similar
nerve troubles can be relieved in thirty
minutes by Neuralgia Anodyne. This
remarkable remedy is used both exter-
nally and internally, soothing the pain
racking nerves that cannot be reached by
external application and working in
through the pores of the skin to the pain-
ful and diseased parts. You will find
Neuralgia Anodyne entirely different
from anything else that you have ever
used. It not only gives quick relief, but
in the majority of cases leads to a perma-
nent cure. Try it on an aching tooth for
instance. A little of the Anodyne
dropped in sweetened warm water and ap-
plied with a piece of cotton batting to
the gums will give instant relief. Suffer
no more with these painful disorders.
A large-sized bottle costs but 25c. Sold
everywhere. Made by the Twitchell-
Chapman Co., Portland, Maine.

He was a son of the late Mr. Saunders of Portland, an engineer on the steamer Governor Dingley. Coroner A. P. Bassett decided that an investigation was not necessary.

Pomological Society, Annual Meeting at Harrison.

An event which will be of much interest to Harrison is the annual meeting of the Maine State Pomological Society, which is to be held at the new hall of the Harrison Grange, November 13 and 14. The meeting is to be open to all those who are in any way interested in the growing of fruits and flowers and the discussions which will be carried on by some of the most eminent authorities in New England, cannot fail to be of great benefit to farmers and the orchardists who are present and give their attention to these things.

Bridgton academy was thoroughly outclassed in the annual Bridgton-Harrison game at North Bridgton, the latter being able to gain almost at will, while the academy team seemed powerless to stem the onslaught of their ancient foes. The game resulted in a victory for Harrison by the score of 24-0. In one of the mix-ups Ralph Charles of Lovell was hit over the eyes and a large gash cut.

Throw away the old cells. Now Wizard Edison promises us a storage battery costing but \$10 a cell, that is indestructible and will carry one 100,000 miles before it is worn out. It is stated that twenty cells are all it will take to run a runabout and sixty will be enough for the heaviest truck. Let's hope there is no sell about this \$10 cell.

FAULTY DIGESTION.

Quickly Shatters the Nervous System and Should be Given Attention at Once.

The most common cause of weak and shattered nerves is faulty digestion. For that reason Mi-o-na stomach tablets are of the greatest good to any nervous sufferer. They strengthen the digestive system so that it will assimilate all the elements of nerve force from the daily food, and the nerves will be strengthened, sleeplessness will be overcome and weakness will vanish.

If you have specks before the eyes, sick and nervous headaches or backaches, in fact, if there are any symptoms of indigestion or nervousness, begin the use of Mi-o-na at once, and you will soon notice improvement in health.

You run no risk in buying Mi-o-na, for Noyes Drug Store gives an absolute guarantee with every 50-cent box, that the money will be refunded unless Mi-o-na does all that is claimed for it.

CONSUMPTION

Supreme Judicial Court.

George Hazen and Jesse Libby, counsel for the defendant in the case of L. E. Hall vs. Etta M. Hall, both of Oxford, in which case the jury found a verdict for plaintiff, are to file exceptions and take it to the Law Court.

Bertha M. West of Bangor was returned to jail at South Paris, Wednesday night, charged with drunkenness and lewd conduct.

Miss West was before Judge Wiswell earlier in the term charged with a statutory offence, and was discharged upon her own recognizance in the sum of \$500 for her appearance at the March term of court, 1907, after the court had given her some fatherly advice.

The case for false imprisonment of Lewis T. Smith against Dr. Orrin Stevens, both of Oxford, was tried Thursday. It appeared that in 1904 Dr. Stevens having a bill against Smith left it for collection with an attorney.

He sued it and obtained judgment. Then he had the defendant cited before a dispositive commissioner at Fryeburg. The citation was served by a constable, who instead of giving it to the defendant in hand, left it at his "last and usual place of abode," while he was away from home for several days.

The consequence was he did not go to Fryeburg on the day set for the disclosure and the trap snapped upon him through his alleged default.

A capias was issued and he, not paying, was taken to Paris jail. The plaintiff's attorney having learned that the service of the citation was defective and that habeas corpus proceedings had been stated by the defendant's attorney, he ordered the jailer to let him go, which he did and the defendant walked home.

Suit was brought and through the proceedings it slumped through and a non-suit was entered. Then the action was begun. Plaintiff set his damages at \$1,000. The matter was sharply contested.

The court ruled after the evidence was all in that the defendant was liable to damages, the only matter to be determined by the jury being the amount.

After being out a short time they returned verdict of \$75 for plaintiff.

Frank P. Stone, druggist, Norway, pleaded guilty to single sale, common seller and nuisance. Sentenced to pay fine, single sale \$50, common seller \$100, nuisance \$100, costs \$37.40.

Henry Labelle, Albert Plant and Josiah Langevin, all of Rumford Falls, were arraigned in court charged with breaking and entering, and larceny.

County Attorney Barnes not pressed the charge of breaking and entering and all three pleaded guilty to the charge of larceny. All three were sentenced to three months in jail at Auburn.

Henry Monchamps, Rumford Falls, charged with breaking and entering and larceny. Breaking and entering not pressed by County Attorney Barnes. On larceny charge case continued on his own recognizance during good behavior.

Nathaniel Brown, former of Oxford, charged with breaking and entering, was found guilty by a jury and sentenced to one year in the county jail.

The court listened to a statement of the facts in the State against G. W. Fernald of Bethel, charged with practicing veterinary medicine without a license.

The State claims that he treated ows by administering tuberculin for tuberculosis. The defense was that he acted under order of the State Board of Cattle Commissioners. The judge ruled that under the laws of 1905 the State Board could appoint anyone to do his work and found a verdict for the defendant.

G. E. Barnes for the State, Wright & Wheeler for the defendant.

The case of Annie L. Siddell of Rumford Falls came to an abrupt end, Friday afternoon. It was one of the Sturgis Enforcement Commission cases. The State bringing out testimony through Sturgis deputies that said deputies had searched the premises of Annie L. Siddell, June 17 and July 24, 1906, and found six gallons of whiskey the first time and five gallons of whiskey the second time. On the opening of court in the afternoon one jurymen was missing, being unavoidably detained. Counsel of both sides waived right of plea, taking case from jury and submitting it to Judge Wiswell, who ruled that it must be proven that respondent knew that her premises were used for the sale of intoxicating liquors. Not finding such action by State sustained by evidence, court ordered respondent discharged.

BUILT UP HER HEALTH

SPEEDY CURE OF MISS GOODE

She Is Made Well by Lydia E. Pinkham's Vegetable Compound, and Writes Gratefully to Mrs. Pinkham.

For the wonderful help that she has found in Miss Cora Goode's story, E. Chicago Avenue, Chicago, Ill., believes it her duty to write the following letter for publication, in order that other women afflicted in the same way may be benefited as she was.

Miss Goode is president of the Bryn Mawr Lawn Tennis Club of Chicago. She writes:

"I tried many different remedies to build up my system, which had become run down from loss of proper rest and nervous habits, but nothing seemed to help me.

My mother is a great advocate of Lydia E. Pinkham's Vegetable Compound for female troubles, having used it herself some years ago with great success. So I began to take it, and in less than a month I was able to be out of bed and out of doors, and in three months I was entirely well. Really I have never felt so strong and well as I have since."

No other medicine has such a record of cures of female troubles as has Lydia E. Pinkham's Vegetable Compound.

Women who are troubled with painful or irregular periods, backache, bloating (or flatulence), displacement of organs, inflammation or ulceration, can be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Her experience is very great, and she gives the benefit of it to all who stand in need of wise counsel in their ailments.

Lydia E. Pinkham and her twenty years has been advising sick women free of charge. Address, Lynn, Mass.

Rheumatism Cannot Be Cured Unless Urice-O is Used

The Noyes Drug Store is the Home of Urice-O in Norway.

The Rheumatic person is skeptical regarding the claims of almost any remedy advertised as a cure for Rheumatism and one can scarcely blame him for being so. All the plasters and liniments combined never actually cure a case of Rheumatism. They may relieve it one quarter, but it is sure to break out somewhere else. The only one who can cure Rheumatism, is to drive it from the system, as long as the Rheumatic Acid remains in the blood, one is never entirely free from the trouble. This is where the value of Urice-O lies. It seeks out the Rheumatic poison in the blood, muscles and kidneys, renders it inert and sends it out of the system. That is why Urice-O is such an admirable and effective cure for Rheumatism.

The chief reason that Urice-O is such a wonderful cure for Rheumatism, is that it is designed and prepared to cure Rheumatism and Rheumatism only. It does not contain any alcohol or other so-called tonics to make one "feel good" for the time being, but is composed of antitoxins for the rheumatic acid poison in the system. That is the secret of its wonderful success. Rheumatism simply does not exist in a person's system if Urice-O is used.

Urice-O is sold by Noyes' Drug Store, "The Home of Urice-O" in Norway, at 75c and \$1.00 the bottle, but if you feel like trying its efficacy you can test it free of charge by cutting out this advertisement and sending it together with your name and address to the Noyes Drug Co., Syracuse, N. Y., and they will send you a sample bottle free. To persons who write and say they have never used Urice-O, want to test it thoroughly, and will agree to take it systematically according to directions, they frequently send a regular 75c bottle free.

The scholars walked from the school building in Oxford village to Welchville, a distance of two miles. On their arrival an appetizing supper awaited them. Their long walk had put a keen edge to their appetites and as one of the boys expressed it, the way the food disappeared was a caution. After all were satisfied, games were played, stories told and a general good time indulged in until a late hour. James Walker was fun maker and each one pronounced it the best time of the school year.

Forty-seven Grand Trunk railroad conductors were recently removed by the railroad company because of the extensive grafting that was going on.

Both Sides Win Their Case

Continued from page 1.
H. B. Young, superintendent of the Norway and Paris Street Railway, had charge of the rates in the dam, and let down water to be used at the Fall; also kept measurements of the water at the dam. In 1904, May 11, there was 10½ feet at dam; August 1, 8 feet and 8 inches; August 27, 5 feet, 7 inches; September 4, 5 feet; September 10, 4 feet, 8 inches; September 18, 3½ feet; October 4, 2 feet. For 1905, May 23, 6½ feet; June 23, 6 feet, 7 inches; July 10, 5 feet, 11 inches; August 1, 5½ feet; September 3, 2 feet; September 12, 1½ feet and this held to December 20, except November 24 there was 20 inches.

Alfred Everett reported the breaking of the boom of logs. He works for C. B. Cummings & Sons in their sheathing factory. He described the shore hold of boom and the rope which was broken. This was corroborated by Chas. E. Jackson.

George A. Brooks, Norway, 65 years old, testified to the dam, channel, and condition of the bog. Had seen water so low in stream that he had jumped across stream when ground was frozen and stream was thawed out.

A. W. Dunham, manufacturer of snow shoes and lives on Crockett Ridge and passes Crockett bridge almost daily. He had come down the lake in a canoe with his wife at low water and the canoe dragged on the ground many times a good deal of the way.

Horace G. Dismore, Norway, and a resident on Crockett Ridge, says he had taken logs down the lake for himself. Harry M. Jackson also testified to a similar occurrence for himself. He said that the water was so low in North Pond that he could once, in a bog dry shod. The bottom or ground on the mud rose and fell with the water.

R. B. Stratton, civil engineer, was recalled Tuesday morning, and made further explanations of the plan or map of his survey. He was the last witness.

After arguments of one hour each were made by Judge Foster of Portland for the defense, and by Hon. J. P. Swasey of Canton for the plaintiff, Judge Wiswell explained the case for thirty minutes and the law governing it and the case was given to the jury at 12:30.

Is the stream from the lake a navigable or floatable one; if so, how much of it? If it is floatable then it is a highway. Was the stream unreasonably choked by the defendants' logs in 1904 and '05, if so, how much damage would they allow the plaintiff? These were questions to be decided by the jury.

The jury found the stream was a floatable or navigable one down to and including the first boat house on the roadside nearest the mill.

Therefore a public waterway or water highway to the lake over which boats, canoes and logs can pass for the convenience of the public.

They also said that the channel had not been unreasonably choked by defendants' logs in 1904-5.

"Verdict in favor of the defendants," was the entry made on the court docket, and this closes one of the most stubbornly contested Norway cases that has been before the court for many a term.

In effect both sides win their case. The injured or possibly aggrieved parties will be Geo. A. Cole and his 13 stall boat house and steamboat landing and Geo. R. Stephenson, boat and canoe builder, and the public to go over the stream and into the lake by the waterway. This point he wins, but by the verdict he has to pay the costs of the suit which will be from five to six hundred dollars. This he cheerfully does feeling that the disputed question of the water way rights into the lake has been settled.

Dr. Thompson brought suit, not for the money he could obtain as damages, but to determine his rights, and the rights of others, cottagers, fishermen and the public to go over the stream and into the lake by the waterway. This point he wins, but by the verdict he has to pay the costs of the suit which will be from five to six hundred dollars. This he cheerfully does feeling that the disputed question of the water way rights into the lake has been settled.
